

The Power of Pollinators

Materials and resources to teach gardeners and naturalists about pollination, pollinators and every gardener's role in pollinator conservation. Three modules are available:

Why Pollinators Matter Bee Biology and Identification Gardening for Pollinators

Each module contains slides, notes and resources to help educators to spread the word about pollinators. Materials are free for educational use.

To access The Power of Pollinator materials and website:

Visit the eXtension website, campus.extension.org and set up an account using the "Create an account" link on the left side of the page. It's free, easy and secure. Once you have that account created (you will receive an e-mail with confirmation and a password), log into the eXtension site, scroll through the available course categories and select Yard and Garden. Then select "The Power of Pollinators." Use the keyword "Beesplease" to enter The Power of Pollinators site.

The Power of Pollinators was created by a partnership between:

The Xerces Society for Invertebrate Conservation

The University of Wisconsin-Madison Center for Integrated Agricultural Systems, and

The Ohio State University Bee Lab and Pollinarium

Funded in part by a grant from NIFA's North Central IPM Working Group
